

Our Service

At Juke's Auto, we provide connection between people and cars. Spend less time hunting online for spare parts with our easy to use and always up-to-date platform, carefully designed with car-lovers in mind. Find the piece you need and get back to building the car you want.

Quality Car Parts

Search by vehicle type for the particular part you need. Every piece available has been carefully selected and checked for quality, so we know that what we offer you is up to scratch for your vehicle. If we have the part, then it will be on our website – no guessing required.

About Us

Juke's Auto was dreamt up by a group of passionate car lovers, who became frustrated with the low-quality options available for online car part marketplaces. We spent years struggling with websites that had low functionality, constantly needing to call up business owners who had no idea what parts were in stock in their own wrecking yards.

With our 15+ years of experience in the wrecking industry, we set out to design and develop an online sales platform that actually works, and we're extremely proud of the result. Clear, easy to use and always up-to-date, Juke's Auto is the website we always wanted, but could never find. Now it's here for you, so that you can spend less time hunting around the internet. Find the parts you need and get back to building the car you want.
