### JESSICURL

The UAE is such a straight hair country ... we would know, having been part of it for 12 years now.

We have always struggled to find quality curly products within its shores. Shipping from neighbouring countries or from source was always expensive ...and not always feasible . These and many more such reasons brought about the birth of My Fair Curl .

With the sole aim to help curlies in the Middle East and beyond , to create an inclusive space for all hair types...we want to be part of that journey.... to help women (men & kids- coming soon!) embrace who truly no matter their hair type .
